Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Monday 18 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Persistent and heavy rain over the next few days.

This Evening and Tonight:
A cloudy evening with patchy rain which swiftly turns widespread, as a band of rand moves in from the west. Downpours will often be heavy, particularly over hills, however dry spells can also be expected at times. Winds increasing. Minimum temperature 5 deg C (41 deg F).

Tuesday:
A windy day as rain persists in the north, bringing heavy downpours. Light and intermittent rain is expected further south. A mild day but feeling rather cold in the wind. Maximum temperature 11 deg C (52 deg F).

Outlook for Wednesday to Friday:
Wednesday will be windy with persistent and heavy rain. Drier and colder conditions on Thursday through to Friday, with the odd shower, yet clear spells at times.
